

Access Covers For Building Applications

Vinyl-Fit Floor Access door

FACTA Class

Gross Laden Vehicle Weight (GLWW)

AA

Up to 5 tonnes

High quality aluminium single recessed floor covers designed for 2-4mm thick flexible vinyl floor finishes, where a durable welded sealed joint is required between the floor finish and access cover. Integral weldable PVC trim supplied fitted to the cover and frame ensures vinyl floor installation is quick and simple.

Its 50mm frame depth makes it ideal where installation depths are restricted. Suitable for pedestrian, trolley and light duty car/van traffic applications. Wide range of size options available for clear openings of between 300mm and 750mm. All covers fitted with EPDM liquid, odour and dust seals as standard with four point stainless steel locking.

Benefits:

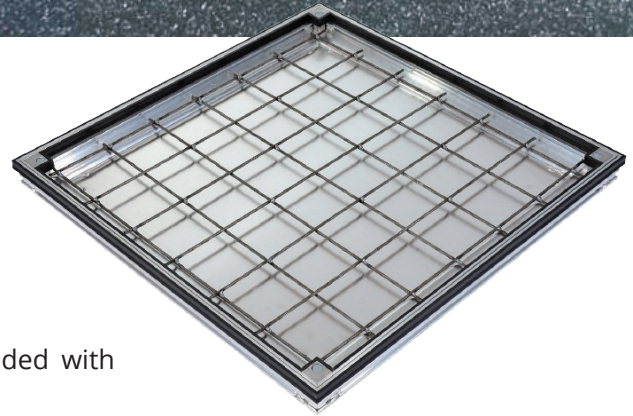

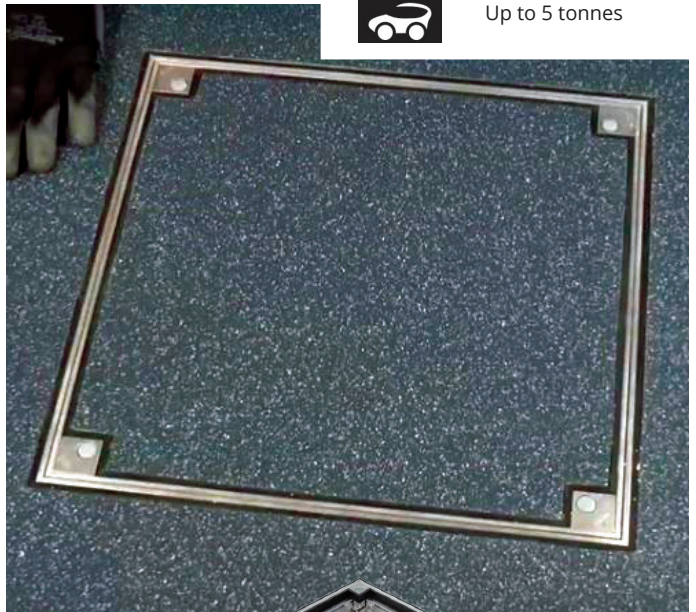

- Integral weldable PVC trim fitted to cover and frame for 2-4mm thick vinyl flooring
- Features and benefits as Multi-fit
- Cover sizes available for clear openings from 200mm to 750mm

Ideal Applications:

- Hospitals
- Offices
- Residential
- Schools

Features:

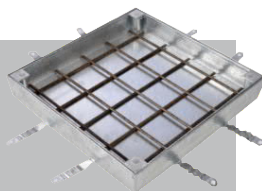

- Two lifting/locking keys and installation manual provided with each access cover.
- Reinforcement provided for long term durability and performance.
- Integral 5mm wide weldable PVC cover and frame trim for sealed and durable floor joining.
- Easy removal with four corner locking/lifting positions and stainless steel locking bolts and dust caps as standard.
- Elegant 4mm aluminium edges blend discreetly with floor finishes.
- High performance triple EPDM seals for liquid, odour and dust-tight applications.
- 50mm deep light weight aluminium frame and cover construction.

Vinyl-fit - Aluminium single recessed access door
